

STUDIO LEGALE
BRESCIA MICCOLI E ASSOCIATI

About us

The firm was set up in 2007 by Marco G. Brescia and Giampiero Miccoli together with Alberto Montanari under the name “Studio Legale Montanari Brescia e Associati” and provides a broad range of corporate and business services to its clients, which are both domestic and foreign, approximately on a 50/50 basis; with respect to foreign clients, the firm advises and assists them first in establishing their business in Italy and then in operating the same in the ordinary and extraordinary course of business.

The firm is active in domestic and cross-border corporate transactions, mergers, acquisitions and joint ventures, as well as in equity investments and change of control transactions, assisting its clients in the adoption of the most suitable corporate governance.

The firm also provides its clients with litigation, arbitration and dispute resolution capabilities, mainly in corporate and commercial law.

During their practice, the members of the firm have built close working relationships with specialists, agencies, authorities and several international law firms: such relationships represent an asset to the firm. Being independent, we are not restricted by exclusive alliances and are therefore free to work with the most qualified professionals for each specific matter, in order to ensure that our clients obtain the best possible advice and representation, and benefit from our well-established network whenever the advice of other professionals is required.

The firm’s domestic and international clients range from privately owned to publicly listed companies, multinationals and private equity funds.

Our approach

Our aim is to provide clear, concise and practical advice based on an in-depth knowledge of the legal, regulatory and commercial environment within which our clients operate.

Our services are tailored to the needs of individual clients. Each client has a dedicated lawyer who coordinates the teamwork and is directly responsible to meet client requirements efficiently and promptly.

Our core values embrace operating to the highest professional standards with a strong commitment to quality of service, cost-effective legal advice and building long-lasting relationships with clients.

Our people

We recognize the importance of the contribution of all our people towards enhancing client service. We foster consultation and the free flow of ideas and know-how among our lawyers aiming at obtaining efficient teamwork and an open and effective working relationship. Thus, we invest time and efforts in recruiting and training the

highest qualified attorneys from the most prestigious Italian law schools.

We also recognize that a significant international experience is a key component in understanding and serving the business objectives and needs of our domestic and foreign clients.

Our lawyers have excelled in their academic education. Some of them have studied in premier foreign legal institutions and have the experience of working abroad as foreign associates at leading international law firms.

Practice areas

Our core areas of business law include corporate law and mergers and acquisitions, commercial law and dispute resolution. We also provide advice in several additional fields which are complementary to our full-service business law practice, including intellectual property, competition law, labour law and bankruptcy, as well as administrative and criminal law.

Corporate, Mergers and Acquisitions

We are able to provide efficient and timely assistance in any matter of corporate law and mergers and acquisitions, in particular in identifying the structure of the transaction, in the due diligence exercise, in joint ventures, shareholders' agreements, spin-offs and corporate restructurings, corporate governance and antitrust.

The firm was involved in various corporate and antitrust aspects relating to the implementation in Italy of major acquisitions at European level.

Businesses are counselled in connection with their ongoing corporate and contractual matters.

Start-up companies and investors are represented in venture capital and private equity transactions.

Commercial Law

We provide assistance to our clients with respect to any kind of contract in which enterprises may be involved, such as manufacturing, distribution, re-sale and supply agreements, general terms and conditions of purchase and sale, public and private work contracts, licences, franchising, agency, business finder agreements, and the like.

We assist our clients in each phase of the commercial agreement, from the identification of the correct legal instrument to be adopted, to the drawing up and negotiation of the contractual documents, up to closing.

Real Estate Transactions

The firm has built up a strong experience in the negotiation of lease agreements on behalf of Italian and foreign clients, having as their subject matter the so called "big leases" of commercial real estate premises (such as executive offices, production plants). Also, the firm is specialized in assisting its clients of the retail sector in the acquisition of shops destined to retail sale, as well as branches of business having as their subject matter points of sale within shopping malls or outlets.

Corporate and Commercial Litigation

We assist clients in structuring strategic and cost-effective dispute resolution programs, also by means of arbitration proceedings. Our expertise extends from pre-litigation advice - including reaching settlement agreements - to injunctive

relief and provisional measures, to full representation before all Italian courts in all fields of corporate and commercial law.

We have acted as counsel and arbitrators in disputes involving parties from around the world and different types of commercial transactions.

We also advise creditors and companies in bankruptcy proceedings.

Competition Law

We advise our clients on the impact of competition law on their commercial practices and agreements and prepare notifications to the Italian Antitrust Authority in the context of mergers and acquisitions and joint ventures.

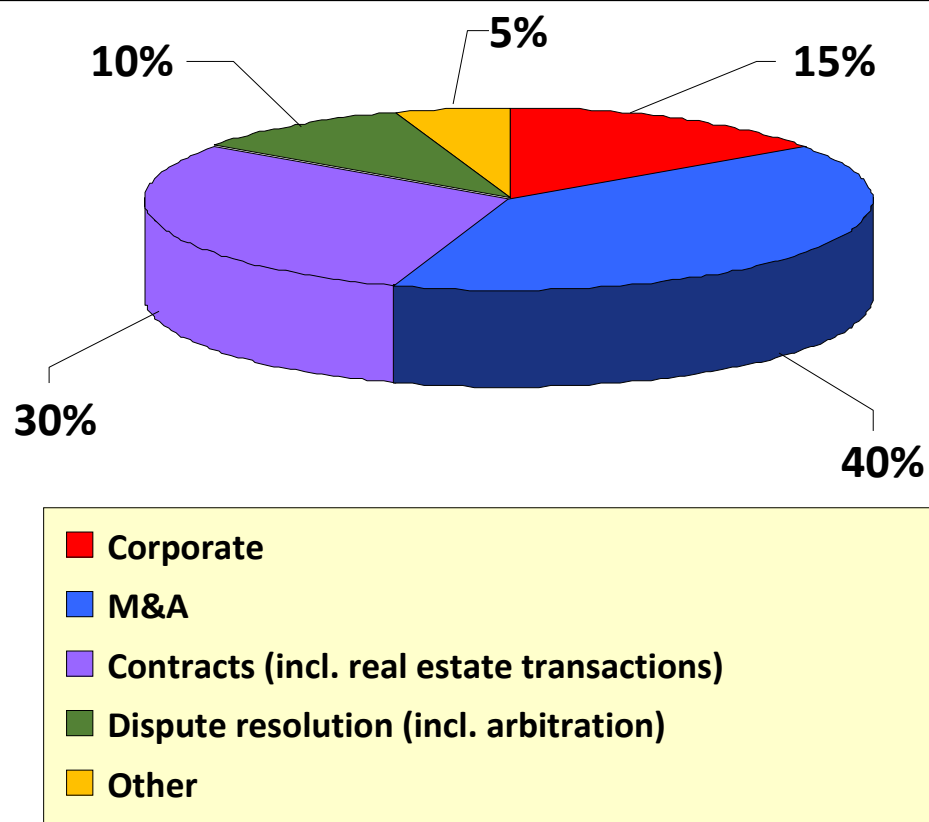

Administrative Law

The firm assists its clients in the various branches of administrative law: from public tenders and concession procedures to town planning and environmental law, up to the sector of independent authorities, project financing and administrative liability.

The area of intervention concerns both the management of litigation proceedings (including arbitration), and assistance and consultancy in individual administrative proceedings, as well as support in extraordinary operations involving administrative law issues (acquisitions, investment projects, due diligence, advice and pre-litigation support).

White Collar Crimes and Investigation

The firm provides judicial and extrajudicial assistance to companies and individuals for issues of corporate criminal law, environmental criminal law and workers' health and safety, also dealing with cybercrimes, medical liability and corporate liability pursuant to Law no. 231/2001.

MEMBERS OF THE FIRM

Giampiero Miccoli

Professional Profile

Giampiero is co-founder of the firm. His main areas of practice include mergers and acquisitions, commercial contracts, corporate and competition law.

Giampiero handled several private equity transactions and through his working experience has built up a specific knowledge in the information and communication business, in the construction business, as well as in industrial sectors such as automotive, chemical and pharmaceutical.

Giampiero advises on the formation and management of companies and holds various directorship positions in the Italian subsidiaries of major corporations. Giampiero also carries out *pro bono* activities in favour of non-profit entities, holding the position of auditor and director of several foundations (including the Raffaele Mattioli Foundation).

Giampiero has gained an extensive experience abroad, working at Taft, Stettinius & Hollister (Cincinnati, Ohio, USA), Stephenson Harwood (London, England) and Bär & Karrer (Zurich, Switzerland).
